1st	Different BAC levels are built into mitigating, intermediate and aggravated standards. Standards also include consideration of Ability to Pay. For most part, each level has the minimum fine throughout with only the maximum fine for that category showing any differences. Due to multiple number of judges, little opportunity to determine operation of guidelines in actual practice.
2nd	Specific penalties for each BAC level; aggravated offenses are the standard one category increase. Uses same categories for 4th offenses.
3rd	Specific fine and revocation penalties for each BAC level but a sentencing range for jail. Used minimum amount of jail for each category. Aggravated fines go up one category but jail and revocations do NOT; have separately set penalties. Has one category below .08% on 4th offense.
4th	Specific penalties for each BAC level; aggravated offenses are the standard one category increase. Uses same categories for 4th offenses.
5th	Uses different BAC categories for different offense levels; 4 on 1st offense, 3 on 2nd offense and 5 on others; aggravated does NOT go up a category. Uses sentencing ranges for most, specific penalties for others. Minimums used in ranges since no ability to determine use in actual practice. No separate categories below .149% on 4th offenses.
6th	Specific penalties for each BAC level; aggravated offenses are the standard one category increase. Five categories for 1st & 2nd offenses, 7 for 3rd offense and 5 for fourth offense, including two categories below .08%
7th	Specific penalties for each BAC level; aggravated offenses are the standard one category increase. No categories below .169% on 4th offenses.
8th	Specific penalties for each BAC level; aggravated offenses are the standard one category increase except for 3rd & 4th offenses which are separately set. Adds a category for offense below .0999 for 4th offenses.
9th	Specific penalties for each BAC level; aggravated offenses are the standard one category increase and a one step drop for mitigating circumstances.. No categories below .10% on 4th offenses.
10th	Specific penalties for each BAC level; aggravated offenses are the standard one category increase except for 3rd & 4th offenses which are separately set. Adds a category for offense below .079% for 4th offenses.
Overall	Most common structure is set penalties with only "standard" or "mitigated" and "aggravated" categories; only 1st and 9th districts have three. Aggravated is usually a one category increase from mitigated. Ranges in 1st and 5th tend to be minimums which pulls down medians and averages. Only the 9th and 10th districts use a simplified chart showing fines inclusive of statutory costs, fees and surcharges.
