Personal Notes

I have been legal counsel for Brookedale Senior Living Inc. for more than two decades. In my role there, I focus my practice on healthcare facility licensure, legal operations and risk management. I grew up in Wauwatosa, Wisconsin and have called Wisconsin home for most of my life.

My husband, Juan (a non-attorney who works at Breakthrough, a U.S. Ventures company in Green Bay), and I enjoy a variety of activities in our spare time. We stay active through tennis and running along the lakefront with friends. We are huge Brewers fans, and try to get to as many games as possible. One of our favorite titles is aunt and uncle to five fantastic kids, who we see regularly. When not reading state regulations on healthcare licensure, I enjoy reading non-legal books, and have been in the same book club for 20 years.

The genuine respect I have for this organization, its members, and its mission are the motivation behind me running for State Bar President. I would be honored to serve with integrity, collaboration, and a focus on the future.
